

## Elite<sup>®</sup> gas furnaces come appointed with:

Insulated blower compartment to minimize heat loss and maximize efficiency

Designed to integrate with the PureAir<sup>™</sup> air purification system

Sturdy burners reduce noise and maintain efficiency throughout the unit life

Patented clamshell design reduces air leakage from the unit, sending more heated air to the home

Additional design elements, like pre-cut holes, pre-bent flanges, and factory installed flue collars, make the installation quicker and more precise

Dual-fuel compatible with Lennox<sup>®</sup> heat pumps for added cost savings

## Annual Fuel Utilization Efficiency (AFUE)

Determines your furnace's fuel efficiency. The higher the AFUE, the more energy-efficient it is.

## Digitally-Enabled Option

A digitally-enabled product is designed to work with a Lennox Smart Thermostat as part of an advanced home comfort system. This is a truly digital product that offers unprecedented control, giving you the ability to more precisely maintain temperature, humidity, and air quality compared to older analog systems.

## Power Saver Constant-Torque Blower Motor

A quieter upgrade over permanent split capacitor motors that offer greater comfort and 33% more efficiency.

## Variable-Speed Blower Motor

The most efficient blower motor available with the ability to slowly ramp the airflow up or down to provide consistently even temperatures as it only produces the necessary amount of airflow at any given time.

## ENERGY STAR<sup>®</sup> Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

## Duralok

A heat exchanger built for Lennox' mid-efficiency (80%) condensing gas furnaces that's made of high-quality heavy gauge aluminized steel to ensure high reliability and efficiency.

## Duralok Plus

A heat exchanger built for Lennox' high-efficiency (90%) condensing gas furnaces that's made of high-quality heavy gauge aluminized steel to ensure high reliability and efficiency.

## Dual-Fuel Compatibility

An HVAC system that pairs an electric heat pump with a gas furnace and alternates between the two fuel sources to maximize comfort and efficiency.

## Warranty Your Way<sup>™</sup>

All Elite models come with a 10-Year Limited Warranty on compressors and a 5-Year Limited Warranty on covered components. A 10-Year Extended Limited Warranty is available with product registration. Furnace heat exchangers offer either 20-Year or Lifetime Limited Warranties. For more information, visit [www.Lennox.com/WarrantyYourWay](http://www.Lennox.com/WarrantyYourWay).

### How does single-stage, two-stage & variable-capacity work?

72°

Single-Stage

Unit is either on or off, creating wide temperature swings.

72°

Two-Stage

Unit runs at either low or high speed, using the lower speed 80% of the time.

72°

Variable-Capacity

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
