

Our leading gas furnaces come appointed with:

Variable-speed fan motor produces consistent airflow, preventing temperature swings

SilentComfort™ technology for peace, quiet and comfort

Insulated blower compartment to minimize heat loss and maximize efficiency

Designed to integrate with PureAir™ S air purification system

Digitally-enabled for easy control at your fingertips

Enhanced humidity control for incomparable comfort

Dual-fuel compatible with Lennox® heat pumps for added cost savings

	The Quietest And Most Efficient Furnace You Can Buy ¹ SLP99V	The Quietest Furnace In Its Class ² SL280V
Annual Fuel Utilization Efficiency (AFUE)	Up To 99%	80%
Ultimate Comfort System™ Product	✓

Annual Fuel Utilization Efficiency (AFUE)

Determines your furnace's fuel efficiency. The higher the AFUE, the more energy-efficient it is.

Duralok

A heat exchanger built for Lennox' mid-efficiency (80%) condensing gas furnaces that's made of high-quality heavy gauge aluminized steel to ensure high reliability and efficiency.

Duralok Plus

A heat exchanger built for Lennox' high-efficiency (90%) condensing gas furnaces that's made of high-quality heavy gauge aluminized steel to ensure high reliability and efficiency.

Precise Comfort® Technology

Finely-tunes and adjusts cooling output in tiny increments, perfectly matching your energy use with your comfort, making it the highest-efficiency, variable-capacity air conditioner available.

Ultimate Comfort System™ Product

The most advanced HVAC system ever. Combines the best of the Dave Lennox *Signature*® Collection to create an unprecedented whole-home comfort system that seamlessly and intelligently works together to stay finely tuned to your home and deliver consistently clean, perfect air.

ENERGY STAR® Certified

HVAC equipment with the ENERGY STAR label meets or exceeds federal guidelines for energy-efficient performance.

Variable-Speed Blower Motor

The most efficient blower motor available with the ability to slowly ramp the airflow up or down to provide consistently even temperatures as it only produces the necessary amount of airflow at any given time.

Warranty Your Way™

All Dave Lennox *Signature*® Collection models come with a 10-Year Limited Warranty on compressor and covered components. Furnace heat exchangers offer either 20-Year or Lifetime Limited Warranties. For more information, visit www.Lennox.com/WarrantyYourWay.

How does single-stage, two-stage & variable-capacity work?

72° Single-Stage

Unit is either on or off, creating wide temperature swings.

72° Two-Stage

Unit runs at either low or high speed, using the lower speed 80% of the time.

72° Variable-Capacity

Unit runs at low most of the time, using only the amount of energy necessary to meet comfort need.
